JOURNEY 3 TRIP 1

MAKE A BACKGROUND BOX FOR YOUR MINI MODELS

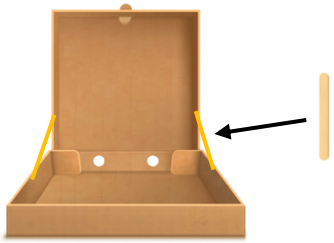

YOU WILL NEED:
- A 10" or 12" Pizza Box or an ordinary cardboard box
- Construction paper
- Glue

STEP 1

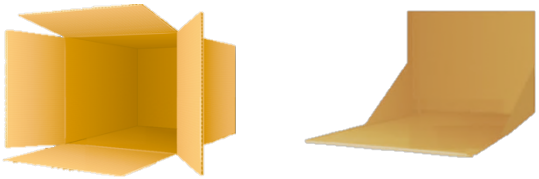

Pizza Box

Glue or tape craft sticks to both sides of the box to hold the lid open.

Ordinary box

Remove the top and sides of the box leaving a triangular brace on each side to hold the back and bottom of the box together. Cut off the front flap.

STEP 2

Use construction paper to decorate your background box. You could use blue for the sky, yellow for the sun and white for the clouds. You could also put green construction paper to make grass. You can add a building or two from the next page by cutting them out and gluing them to the background.

STEP 3

Place the mini models of Lev, Bo, Ozzy, Roots and Hyla in your background box. Add mini models as you make them each Trip.
